## SELECTMEN'S REPORT

---

As this report goes to press, the detailed audit of the accounts of the Town Treasurer is still in progress. We particularly call your attention to the report of the Auditor, which you will find preceding the reports of the School Departments, in which he states that the balance of cash on hand February 1, 1937, is the amount due the town after all bills are paid, excepting \$3,833.72, which is the amount of warrants outstanding after these bills are paid.

We refer you, also, to the "Tax Dollar" found elsewhere in this report, which explains what becomes of your dollar as applied to appropriations.

In spite of the fact that many obstacles have presented themselves in an attempt to stop our progress, nevertheless, we have carried forward to successful completion many of the plans with which we started at the beginning of the year. We have provided the nucleus of a Fire Department and feel confident that as time goes on this will prove a source of pride and security. We feel that it merits your support. We have moved the tractor building onto our own land and built a shed to house and care for our road machinery.

It is apparent, when considering the amount of uncollected taxes and tax liens, that a concerted effort should be made to provide some opportunity for our people toward gainful employment. We believe that more attention should be applied to our summer visitors in order that Winterport can receive its share of this business. We should cater to the pleasure boats and yachts now on the river in an attempt to make Winterport their home port. Our location being what it is, offers splendid opportunity for a small manufacturer to locate here and thus provide a yearly payroll.

We have coöperated with the W. P. A. in everything that offered a chance to provide an opportunity to work. As a result of this coöperation, we have built an athletic field, more than two miles of improved gravel type roads and cared for our poor without asking for any additional funds.

In many ways, 1936 has been a successful year; we present for your approval the following report.

EVERETT O. SHAW,

ALBERT C. EDMONDS,

OSCAR E. LITTLEFIELD,

*Selectmen of the Town of Winterport.*

**REPORT OF HEALTH OFFICER FOR 1936**

The following number of cases of communicable diseases have been reported in the past year: Measles, 4; pneumonia, 6; chicken pox, 7; mumps, 38.

JOSEPH E. COOK, *Health Officer.*

## REPORT OF FIRE INSPECTOR FOR 1936

I received calls for chimney fires at the following residences: Mrs. George Grant, Page & Bryer Block, Ellery Bowden, and Mrs. John Cole.

I am pleased to see the town make a start towards improving its fire fighting equipment, and trust the citizens of the town will make possible the continuance of the good work already started.

Respectfully submitted,

JOSEPH E. COOK, *Fire Inspector.*

## AUDITOR'S REPORT

PORTLAND, MAINE,

February 27, 1937.

*To the Board of Selectmen, Winterport, Maine:*

Gentlemen:—In accordance with your request, I have audited the accounts of the Selectmen of the Town of Winterport for the year ending January 31, 1937, and submit the following statements relative to the financial transactions and financial standing as of that date.

As will be seen by the following comparative balance sheets, although the town voted at the annual town meeting on March 16, 1936, in accordance with the recommendation of the Auditor to write off old assets representing uncollected taxes prior to 1930, amounting to \$7,829.94, and the amount of \$3,000.00 was borrowed from the Merchants National Bank for school heating plants, the net surplus of the town was reduced only \$6,003.75 due to the fact that \$2,000.00 was appropriated by the town to reduce the bonded indebtedness and that the Selectmen, through careful spending of the town funds and constant watching all balances of town accounts, turned in a net unexpended balance of all accounts for the year amounting to \$2,826.19, which is the amount shown by the following summary of accounts.

On June 27, 1936, the Board of Selectmen formally served notice on the Collector of Taxes for the years 1930 and 1931 to bring in the amount of \$187.12 representing all outstanding taxes for the year 1930, and \$768.61 representing all outstanding taxes for the year 1931, and settle with the town on or before

January 1, 1937. To date no final settlement has been made by the Collector for those years. We believe that the voters of the town should take some steps at this time to instruct the Board of Selectmen as to what procedure they desire the Board to follow in regard to this matter. It is very poor policy to allow uncollected taxes to remain unsettled for so long a period.

The accounts of the Selectmen have been recorded in an exceptionally neat and accurate manner by E. O. Shaw, Chairman of the Board of Selectmen, and the results of the efforts of the Board of Selectmen in behalf of the town are clearly reflected in the following statements which show that after all bills have been paid, with exception of the amount of \$3,833.72 shown as outstanding warrants, there will be a cash balance of \$520.40 due the town and a net surplus of \$6,500.28 will exist.

Respectfully submitted,

A. W. REEVES,

*Public Accountant and Auditor.*

## SCHOOL REPORT

---

### REPORT OF SUPERINTENDENT OF SCHOOLS

*To the School Committee and Citizens of Winterport:*

In accordance with my duty I herewith submit the annual report of the condition and progress of the schools and the financial standing of the various accounts for the fiscal year ending February 1, 1937.

Winterport has been especially fortunate in being able to retain so many teachers from year to year. Several changes, however, have occurred during the past year. It has been the aim and constant endeavor of the school officials to employ trained and experienced teachers, in order that the pupils may receive the best education that is within our means to provide. There is no oversupply of competent teachers at the present time and indications are that we are apt to be faced with a serious shortage in the near future. New teachers coming into the school system during the year are Mr. Into Suomi, Commercial Department; Miss Charlotte Thompson, Grade 5; Miss Clara Knowles, Grades 4 and 6, and Mr. John Carleton, Martin School.

The work in the schools has been carried on in much the same manner as heretofore. The reading program has been continued and also especial emphasis is now being placed on the teaching of History, Geography and Civics.

The attendance has been very good in most cases, although the average has been lowered somewhat by sickness and contagious diseases. We hope that all parents will coöperate with the school

officials by seeing that their children attend school regularly, for only by so doing can the best results be accomplished. The enrollment and average attendance in the various schools for the year ending in June, 1936, is shown by the following table:

School	Total Enrollment	Average Attendance
High school,	113	94
Grade 1 and subprimary,	31	26
Grade 2,	30	23
Grade 3,	34	26
Grade 4,	38	32
Grades 5 and 6,	35	31
Grades 6 and 7,	39	36
Martin School,	15	12
	<hr/>	<hr/>
Total,	335	280

The high school orchestra has been continued and made a part of the regular school curriculum. Mr. Carleton Young, the director, now holds a State certificate for the teaching of orchestra. Grateful acknowledgement is made to the Parent-Teacher Association for their assistance in assuming one-half of the cost of this program.

The conveyance arrangements have proceeded very satisfactorily during the year. It was found necessary at the beginning of the fall term to start a new route for the children of Lyman Blake and others in the neighborhood. This has, of course, added somewhat to the conveyance costs.

The major item of importance in the improvements of buildings during the year has been the installation of steam heating systems in both the high and grade school buildings. The interior of the Martin School has been thoroughly cleaned and painted and presents a lighter and more attractive appearance. The insurance policies on the village buildings have been renewed on a three-year basis, thereby effecting a saving in premiums. The amount of insurance in force is very conservative and should probably be increased during the coming year.

The School Committee have made an estimate of the appropriations needed for the next fiscal year, and their recommendations are attached to this report. The total amount of these recommendations is the same as was appropriated last year, although the distribution between the accounts has been changed. The common school and high school accounts have been increased to provide for the added conveyance and orchestra, while a corresponding decrease has been made in the repairs account.

Expressing my appreciation for the coöperation that has been extended the school officials, this report is

Respectfully submitted,

KERMIT S. NICKERSON,

*Superintendent of Schools.*

## REPORT OF HIGH SCHOOL PRINCIPAL

Following is the report of the five-year high school for 1936-37:

On the eighth of September, 105 pupils registered by classes as follows: Eighth year, 24; Freshmen, 18; Sophomores, 25; Juniors, 22; Seniors, 16. At present there are 105 pupils in regular attendance of whom 64 are girls and 41 are boys. Of the above number, over 60% are being transported to and from school by bus.

The school day is now divided into seven periods during which time twenty-five regular classes are held. The last period of each day is set aside for special activities, as well as to offer an opportunity for teachers to give individual attention and help to pupils. This plan has been of decided benefit to those pupils who are unable to remain for special help after school hours.

The program of activities include dramatics, public speaking, orchestra, and journalism. Each of these activities, as a supplement to the academic subjects, has its part to play in the training of boys and girls to become useful and intelligent citizens.

The housing conditions were greatly improved by the installation of a steam heating plant which has added to the comfort of the pupils and is much more conducive to proper habits of study than was the previous system.

Six members of last year's Senior class are now attending institutions of higher education. Four are at the University of Maine, one at Farmington Normal School and one at Eastern State Normal School. Recent reports indicate that all are doing a satisfactory grade of work.

One of the Winterport High School graduates in the class of 1935 has received high scholastic honors at Wentworth Institute this year by being placed on the Dean's list at that institution.

Although only a small percentage of our graduates attend institutions of higher education, it is gratifying to note that all who have done so in recent years have been successful scholastically.

I hereby express my appreciation for the coöperation accorded me by the members of the faculty, the School Board, the Superintendent and the citizens of the Town of Winterport. It is through such coöperation that it is possible to carry out the school program with the best results to the children who are to become future citizens.

Respectfully submitted,

E. A. McKEEN,

*Principal of Winterport High School.*
